# CURRICULUM FOR THE ACADEMIC YEAR 2023-2024

# DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

**B.E.**(Computer Science & Engineering)

# **III SEMESTER**

POOJYA DODDAPPA APPA COLLEGE OF ENGINEERING
(An autonomous college under VTU)
KALABURAGI

About the institution: The Hyderabad Karnataka Education (HKE) society founded by Late Shri. Mahadevappa Rampure, a great visionary and educationist. The HKE Society runs 46 educational institutions. Poojya Doddappa Appa College of Engineering, Gulbarga is the first institution established by the society in 1958. The college is celebrating its golden jubilee year, setting new standards in the field of education and achieving greater heights. The college was started with 50% central assistance and 50% state assistance, and a desire to impart quality technical education to this part of Karnataka State. The initial intake was 120 with degree offered in three branches of engineering viz, Civil, Mechanical and Electrical Engineering. Now, it houses 11 undergraduate courses, 10 post Graduate courses and 12 Research centers, established in Civil Engg., Electronics & Communication Engg, Industrial & Production Engg, Mechanical Engg, Electrical Engg., Ceramic Cement Tech., Information Science & Engg., Instrumentation Technology, Automobile Engg., Computer Sc. and Engg., Mathematics and Chemistry All the courses are affiliated to Visveswaraya Technological University, Belgaum. At present the total intake at UG level is 980 and PG level 193.

The college receives grant in aid funds from state government. A number of projects have been approved by MHRD /AICTE, Govt. of India for modernization of laboratories. KSCST, Govt. of Karnataka is providing financial assistance regularly for the student's projects.

The National Board of Accreditation, New Delhi, has accredited the College in the year 2005-08 for 09 UG Courses out of which 08 courses are accredited for three years and 01 course is accredited for five years. And second time accredited for Six Course in the year 2009-2012

Our college is one among the 14 colleges selected under TEQIP, sponsored by World Bank. It has received a grant of Rs 10.454 Crores under this scheme for its development. The institution is selected for TEQIP phase II in year 2011 for four years. Institution is receiving a grant of Rs. 12.50 Crores under TEQIP Phase -II scheme for its development and selected for TEQIP-III as mentoring Institute for BIET Jhansi(UP).

Recognizing the excellent facilities, faculty, progressive outlook, high academic standards and record performance, the VTU Belgaum reposed abundant confidence in the capabilities of the College and the College was conferred Autonomous Status from the academic year 2007-08, to update its own programme and curriculum, to devise and conduct examinations, and to evaluate student's performance based on a system of continuous assessment. The academic programmers are designed and updated by a Board of Studies at the department level and Academic Council at the college level. These statutory bodies are constituted as per the guidelines of the VTU Belgaum. A separate examination section headed by a Controller of Examinations conducts the examinations.

At present the college has acquired the Academic autonomous status for both PG and UG courses from the academic year 2007-08 and it is one among the six colleges in the state of Karnataka to have autonomous status for both UG and PG courses.

One of the unique features of our college is, it is the first college in Karnataka State to start the Electronics and Communication Engineering branch way back in the year 1967, to join NIT Surathkal and IISc, Bangalore. Also, it is the only college in the state and one among the three colleges across the country, offering a course in Ceramic and Cement Technology. This

is the outcome of understanding by faculty and management about the basic need of this region, keeping in view of the available raw material and existing Cement Industries.

Bharatiya Vidya Bhavan National Award for an Engineering College having Best Overall Performance for the year 2017 by ISTE (Indian Society for Technical Education). In the year 2000, the college was awarded as Best College of the year by KSCST, Bangalore in the state levelstudents projects exhibition.

The college campus is spread over 71 acres of land on either side of Mumbai-Chennai railway track and has a sprawling complex with gardens and greenery all around.

About the department: The Computer Science and Engineering department was started in the year 1984 with an intake of 40 students for UG. The department has seen phenomenal growth and now the department has increased UG intake to 120 students and offering two Post Graduation programmes: PG (Computer Science and Engineering with an intake of 25students) and PG(Computer Network and Engineering with an intake of 18 students). The department is offering research program under its recognized research center. Computer Science and Design course was started from 2021 with an intake of 60 students. The department is having state- of-the-art computing facilities with high speed internet facilities and laboratories. The department library provides useful resources like books and journals. The department has well qualified and experienced teaching faculty. The department has been conducting several faculty development programs and student training programs.

# **Vision of the Institution**

To be an institute of excellence in technical education and research to serve the needs of the industry and society at local and global levels.

# **Mission of the Institution**

- To provide a high quality educational experience for students with values and ethics thatenables them to become leaders in their chosen professions.
- To explore, create and develop innovations in engineering and science through research anddevelopment activities.
- To provide beneficial service to the national and multinational industries and communitiesthrough educational, technical, and professional activities

# **Vision of the Department**

• To become a premier department in Computer education, research and to prepare highlycompetent IT professionals to serve industry and society at local and global levels.

# **Mission of the Department**

- To impart high quality professional education to become a leader in Computer Scienceand Engineering.
- To achieve excellence in Research for contributing to the development of the society.
- To inculcate professional and ethical behaviour to serve the industry.

# **Program Educational Objectives (PEO):**

| PEO1: | To prepare graduates with core competencies in mathematical and engineering |  |  |  |
|-------|---|--|--|--|
|       | fundamentals to solve and analyze computer science and engineering problems |  |  |  |
| PEO2: | To adapt to evolving technologies and tools for serving the society         |  |  |  |
| PEO3: | To perform as team leader, effective communicator and socially responsible  |  |  |  |
|       | computer professional in multidisciplinary fields following ethical values  |  |  |  |
| PEO4: | To encourage students to pursue higher studies, engage in research and to   |  |  |  |
|       | become entrepreneurs  |  |  |  |

## **Program Outcomes:**

- **01. Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- **02. Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- **03. Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- **04.** Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- **05. Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
- **06.** The Engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- **07. Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **08.** Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- **09. Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- **10. Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- **11. Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one,,s own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **12. Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# **Program Specific Outcomes (PSOs):**

| PSO1: | Acquire competency in hardware and software working principles to analyze and solve computing problems.          |
|-------|--|
|       | Design quality software to develop scientific and business applications followingSoftware Engineering practices. |
| PSO3: | Apply cutting edge technologies using modern tools to find novel solutions ethicallyto existing problems.        |

#### **AUTONOMOUS SYLLABUS FOR B.E III SEMESTER 2023-2024**

| Course Title: ENGINEERING MATHEMATICS-III FOR COMPUTER SCIENCE ENGINEERING |       |         |  |  |  |
|--|-------|---------|--|--|--|
| STREAM   |       |         |  |  |  |
| Subject Code: 22MATS31 Credits: 03 CIE: 50                                 |       |         |  |  |  |
| Number of Lecture Hours/Week (L:T:P)                                       | 3:0:0 | SEE: 50 |  |  |  |
| Total Number of Lecture Hours 42 SEE Hours: 03                             |       |         |  |  |  |
| T  |       |         |  |  |  |

**Prerequisites: Nil** 

**Course Learning Objectives**: To enable the students to obtain the knowledge of Engineering Mathematics in the following topics

- 1. Probability distribution of discrete and continuous random variables
- 2. Joint probability distributions and discrete and continuous random variables
- 3. Analyse the sample data using Large sample test, t-distribution and chi-distribution

| MODULES   | Teaching Hours |
|---|----------------|
| Module - I  Probability distributions: Random variable (Discrete and continuous) probability density function, cumulative density function. Binomial distribution, Poisson distributions, Normal distribution and problems.   | 09 Hrs         |
| Module - II  Joint probability distributions: Concept of joint probability distribution, discrete and continuous random variables independent random variables .problems on expectation and variance  | 08 Hrs         |
| Module – III  Sampling theory -I: Sampling, sampling distribution, standard error, null and alternative hypothesis, Type-I and Type-II errors, Confidence limits. Test of significance for Large sample: Test for single proportion, difference of proportions, single mean, difference of means, and difference of standard deviations | 09 Hrs         |
| Module – IV  Sampling Theory – II: Test of significance Small samples student's t-distribution: Test for single mean, difference of means, test for ratio of variances - Chi-square test for goodness of fit and independence of attributes and problems  | 08 Hrs         |
| Module – V Optimization techniques: Linear Programming: Mathematical formulation of linear Programming problem (LPP), Types of solutions, Graphical Method, basic feasible solution, canonical and standard forms and simplex method.   | 08 Hrs         |

## **Question paper pattern:**

The question paper will have ten questions.

There will be 2 questions from each module, covering all the topics from a module.

The students will have to answer 5 full questions, selecting one full question from each module.

## Text books:

- 1 Higher Engineering Mathematics by B.S.Grewal, Khanna publishers; 40<sup>th</sup> Edition.2007
- 2 Engineering Mathematics by N. P. Bali and Manish Goyal. Laxmi publications, latest edition

## **Reference books:**

- 1.Advanced Engineering Mathematics by E. Kreyszig, John Willey & sons 8<sup>th</sup> Edn.
- 2.A short course in differential equations Rainvile E.D.9<sup>th</sup> Edition.
- 3. Advanced Engineering Mathematics by R.K.Jain & S.R.K Iyengar; Narosa publishing House.
- 4.Introductory methods of numerical analysis by S.S.Sastry
- 4. Statistical Methods Authored By Gupta S.P. Publisher: Sultan Chand & Sons. Publishing Year: 2021
- $5.\ Fundamentals\ of\ Mathematical\ Statistics\ Authored\ By\ Gupta\ S.C.\&\ Kapoor\ V.K.\ Publisher:\ Sultan$

Chand & Sons. Publishing Year: 2020

## **Course outcomes:**

## On completion of the course, the student will have the ability to:

| Course<br>Code | CO# | Course Outcome (CO)   |
|----------------|-----|---|
|                | CO1 | Solve problems using theoretical probability distributions                                      |
| 228// 4/T/C21  | CO2 | Apply the concepts of joint probability, to find covariance, correlation, independent variables |
| 22MATS31       | CO3 | Analyze the sample data using Large sample tests  |
|                | CO4 | Analyze the sample data using t-distribution and chi- distribution                              |
|                | CO5 | Apply optimization techniques and LPP for real life problems                                    |

| Course Title: ANALOG AND DIGITAL ELECTRONICS |             |               |  |  |  |
|--|-------------|---------------|--|--|--|
| Subject Code :22CS32                         | Credits :04 | CIE: 50       |  |  |  |
| Number of Lecture Hours/Week (L:T:P)         | 3:0:2       | SEE: 50       |  |  |  |
| Total Number of Lecture Hours                | 42          | SEE Hours: 03 |  |  |  |

**Prerequisites:** Knowledge of Basic Electronics and Boolean algebra.

# **Course Objectives:**

- Recall and Recognize characteristics of PDs, optocouplers, BJT.
- Demonstrate and analyze operational amplifier circuits and their applications
- Describe and analyze combinational logic circuits, simplifications of algebraic equations using Karnaugh maps and Quine McClaskey techniques
- Design decoders, encoders and substractors, Binary comparators latches and flip flops.
- Design registers and counters, A/D and D/A converter.

| MODULES   | <b>Teaching Hours</b> |
|---|-----------------------|
| Module – I  Photo diodes, Light emitting diodes, Optocouplers, BJT Biasing: Fixed Bias, Collector to Base Bias, Voltage Divider Bias, Operational Amplifiers, Application circuits: Multivibrators using 555 IC, Peak detector, Schmitt trigger, Active filters, Non linear Amplifier, Relaxation Oscillator, Current to voltage, voltage to Current converter, Regulated power supply parameters, Adjustable voltage Regulator.  | 10 Hrs                |
| Module – II  The Basic Gates: Review of Basic Logic gates, Positive and Negative Logic. Combinational Logic Circuits: Sum-of-Products Method, Truth Table to Karnaugh Map, Pairs Quads, and Octets, Karnaugh Simplifications, Don't-care Conditions, Product-of-sums Method, Product-of-sums simplifications, Simplification by Quine-McClusky Method, Hazards and Hazard covers.  Module – III  Data-Processing Circuits: Multiplexers, Demultiplexers, 1-of-16 Decoder, BCD to Decimal Decoders, Seven Segment Decoders, Encoders, Exclusive-OR Gates, Parity Generators and Checkers, Magnitude Comparator, Programmable Array Logic, Programmable Logic Arrays, Arithmetic Building Blocks: Half-adder, Full adder, Adder &Substractor, arithmetic logic unit.  Flip- Flops: RS Flip-Flops, Gated Flip-Flops, Edge-triggered RS FLIP-FLOP, Edge-triggered D FLIP-FLOP, Edge-triggered JK FLIP-FLOP. | 08 Hrs                |
| Module – IV  Flip- Flops: FLIP-FLOP Timing, JK Master-slave FLIP-FLOP, Switch Contact Bounce Circuits, Various Representation of FLIP-FLOPs. Registers: Types of Registers, Serial In - Serial Out, Serial In - Parallel out, Parallel In - Serial Out, Parallel In - Parallel Out, Universal Shift Register, Applications of Shift Registers. Counters: Asynchronous Counters, Decoding Gates, Synchronous Counters, Changing the Counter Modulus.   | 08 Hrs                |

#### Module - V

Counters: Decade Counters, Presettable Counters, Counter Design as a Synthesis problem, A Digital Clock. D/A Conversion and A/D Conversion: D/A Converters Variable, Resistor Networks, Binary Ladders, , D/A Accuracy and Resolution, A/D Converter-Simultaneous Conversion, A/D Converter-Counter Method, A/D Accuracy and Resolution.

08 Hrs

# List of Programs

- 1. Design and construct a Schmitt trigger using OP-Amp for given UTP and LTP values anddemonstrate its working.
- 2. Design and implement an Astable multivibrator circuit using 555 timer for a givenfrequency and duty cycle.
- 3. Design and implement Half adder, Full Adder, Half Subtractor, Full Subtractor using basicgates.
- 4. Given a 4-variable logic expression, simplify it using Entered Variable Map and realize thesimplified logic expression using 8:1 multiplexer IC.
- 5. Design and implement code converter I) Binary to Gray (II) Gray to Binary Code using basic gates.
- 6. Design and verify the Truth Table of 3-bit Parity Generator and 4-bit Parity Checker using basic Logic Gates with an even parity bit.
- 7. Realize a D,T,JK Flip-Flop using NAND gates and verify its truth table.
- 8. Design and implement a mod-n (n<8) synchronous up counter using JK Flip Flop ICs and Demonstrate its working
- 9. Design and implement an Asynchronous counter using decade counter IC to count from 0to n(n<=9) and demonstrate on seven segment display(using IC 7447).
- 10. Design SISO and PISO shift register.
- 11.Generate a Ramp output waveform using DAC0800 (Inputs are given to DAC throughIC74393 dual 4-bit binary counter).

## **Question paper pattern:**

The question paper will have ten questions.

There will be 2 questions from each module, covering all the topics from a module.

The students will have to answer 5 full questions, selecting one full question from each module.

## **Text Books:**

- 1. Anil K Maini, Varsha Agarwal, "Electronic Devices and Circuits", Wiley, 2012.
- 2. Donald P Leach, Albert Paul Malvino & Goutam Saha, "Digital Principles and Applications", 8<sup>th</sup> Edition, Tata McGraw Hill, 2015

# **Reference Books:**

- 1. R D Sudhaker Samuel, "Illustrative Approach to Logic Design", Sanguine-Pearson, 2010.
- 2. M Morris Man, "Digital Logic and Computer Design", 10<sup>th</sup> Edition, Pearson, 2008.

# **Course outcomes:**

On completion of the course, the student will have the ability to:

| Course<br>Code | CO# | Course Outcome (CO)   |
|----------------|-----|---|
|                | CO1 | To understand the principle of operation of different analog circuits.            |
|                | CO2 | Analyze combinational circuits.   |
| 22CS32         | CO3 | Acquire the knowledge of Flip Flop operations and application of shift registers. |
|                | CO4 | Design and analyze synchronous and asynchronous counters.                         |
|                | CO5 | Understand the working and applications of A/D, D/A converters.                   |

| Course Title: OBJECT ORIENTED PRO   | GRAMMING WITH JAVA   |                                |  |  |

# Classes, Anonymous Inner Classes Question paper pattern:

The question paper will have ten questions.

There will be 2 questions from each module, covering all the topics from a module.

The students will have to answer 5 full questions, selecting one full question from each module.

#### Text Books:

- 1. Mastering C++, K R Venugopal, Rajkumar, T Ravishankar, 2012 Tata McGraw hill education private limited
- 2. Java Fundamentals: A comprehensive Introduction by Herbert Schildt, Dale Skrien. Tata McGraw Hill Edition 2013.

#### **Reference Books:**

- $1. \ \ Herbert\ Schildt\ , The\ Complete\ Reference,\ \underline{JAVA}\ 7^{th}/9th\ Edition,\ Tata\ McGraw\ Hill,\ 2013.$
- 2. Stephanie Bodoff et al: The J2EE Tutorial, <sup>2nd</sup> Edition, Pearson Education, 2004.

# Lab Programs:

- 1. Write a Java Program to demonstrate the creation of class for student information.
- 2. Write a program in Java for String handling which performs the following:
- i) Checks the capacity of String Buffer objects.
- ii) Reverses the contents of a string given on console and converts the resultant string in upper case.
- iii) Reads a string from console and appends it to the resultant string of ii.
- 3 a. Write a JAVA Program to demonstrate Constructor Overloading and Method Overloading.
- b. Write a JAVA Program to implement Inner class and demonstrate its Access Protections.
- 4. a. Write and execute a JAVA Program to demonstrate Inheritance.(single leveland multilevel)
  - b. Write and execute a JAVA program to demonstrate method overriding.
- 5. Write a JAVA Program to demonstrate multiple inheritance using interfaces to calculate the area of a rectangle and triangle.
- 6. Write a JAVA program to create and import packages in JAVA.
- 7. Write a JAVA program which has
- i. A Class called Account that creates account with 500Rs minimum balance, a deposit() method to deposit amount, a withdraw() method to withdraw amount and also throws Less Balance Exception if an account holder tries to withdraw money which makes the balance become less than 500 Rs. Amount (Rs) is not valid.
- ii. A Class which creates 2 accounts, both account deposit money and one account tries to withdraw more money which generates a Less Balance Exception take appropriate action for the same.
- iii. A Class which creates 2 accounts, both account deposit money and one account tries to withdraw more money which generates a Less Balance Exception take appropriate action for the same.

- 8. Write a Java program to implement multithreading in JAVA which demonstrate built in methods available for thread.
- 9. Write a JAVA program using Synchronized Threads, which demonstrates Producer Consumer concept.
- 10. Write a JAVA applet program to create a basic Applet having buttons, text area GUI controls to add & subtract two nos. Use appropriate event listeners.
- 11. Write a Java program to store, delete and update data in a database with the support of JDBC-ODBC connectivity

| CourseCode  | CO# | Course Outcome (CO)   |
|---|-----|---|
|   | CO1 | Understand the concepts of Object Oriented Programming and apply the concepts of programming and implement programs using JavaConstructs. |
| 22CS33 Create classes and demonstrate object oriented progressions. |     | Create classes and demonstrate object oriented programming concepts.  |
|   | CO3 | Demonstrate inheritance, interfaces and Packages.   |
|   | CO4 | Illustrate multithreading code for concurrency and run-time errors using exceptionHandling mechanism.                                     |
|   | CO5 | Develop GUI applicationprogram using Applet, event handling for design web application.   |

| Course Title: DATA STRUCTURES        |             |               |  |  |
|--------------------------------------|-------------|---------------|--|--|
| Subject Code: 22CS34                 | Credits :03 | CIE: 50       |  |  |

| Total Number of Lecture Hours        | 42          | SEE Hours: 03 |  |  |

**Prerequisites:** C language fundamentals and programming skill, Basic knowledge of algorithm development, Knowledge of linear and Non-linear data types

# **Course Objectives:**

- To study the behavior of data structures such as stacks, queues, trees, hash techniques, search trees and their representations.
- To choose the appropriate data structure for a specified application.
- To analyze various searching and sorting algorithms.

| • To analyze various searching and sorting algorithms.  | 70. 34            |
|---|-------------------|
| MODULES   | Teaching<br>Hours |
| Module - I  |                   |
| Structures and Unions: Structure definition, giving value to members, Structure                           |                   |
| initialization, Comparison of structure variables, Arrays of structures, Arrays within                    |                   |
| structures, Structure within structures, Structure and functions, Unions, Size of structures, Bit-fields. |                   |
| <b>Pointers:</b> Understanding pointers, and the address of operator, Declaring and                       |                   |
| initializing pointer, Accessing a variable through it's pointer, Pointer and arrays, Pointer              | 08 Hrs            |
| and character strings, Pointer and functions, Pointer and Structures.                                     |                   |
| <b>Dynamic memory allocation:</b> Meaning of dynamic memory allocation, MALLOC,                           |                   |
| CALLOC, Free and REALLOC functions, Pointer revisited.  |                   |
| <b>File management:</b> Definition and opening a file, closing a file, I/O operations on files,           |                   |
| Error handling during file operation, Radom access to files, Command line arguments                       |                   |
| Module - II   |                   |
| <b>Definition and Representing Stack in C:</b> Primitive operation, Example. Implementing                 |                   |
| the pop() operation, Testing for exceptional conditions, Implementing the push()                          |                   |
| operation, Example: Infix, Postfix and Prefix, Basic definitions and Examples,                            |                   |
| Evaluating a postfix expression, Program to evaluate postfix expression, Converting an                    |                   |
| expression from infix to postfix, Program to convert expression from infix to postfix.                    | 08 Hrs            |
| Recursive definition and processes: Factorial function, Multiplication of natural                         |                   |
| numbers, Fibonacci sequence, Binary search, Properties of recursive definition or                         |                   |
| algorithm Recursion in C: Factorial of a number Generation of Fibonacci numbers,                          |                   |
| Binary searching, Towers of Hanoi problem.  |                   |
| Module – III  |                   |
| The queue and it's sequential representation: C implementation of queues, Insert                          |                   |
| operation, Priority queues, Array implementation of priority Linked lists: Inserting and                  |                   |
| removing nodes from a list. Linked implementation of stacks, Get node and Free node                       | 08 Hrs            |
| operations, Linked list implementation of queues, Linked list as a data structure,                        |                   |
| Example of list operations, Header nodes. Array implementation of list, Linked                            |                   |
| implementation of lists. Limitations of array implementation, Allocating and freeing                      |                   |
| dynamic variables, Linked list using dynamic variable, Queues as lists in C,                              |                   |
| Example of list operations in C, Non- integer and non-homogeneous lists.                                  |                   |

| Module - IV   |        |
|---|--------|
| Other list structures: Circular lists, Stack as circular list, Queues as a circular list, |        |
| Primitive operations on circular list, doubly linked list.                                |        |
| Binary trees: Operations on binary trees and applications of binary trees Binary tree     |        |
| representation: Node representation of binary tree, Internal and external nodes, Implicit | 09 Hrs |
| array representation of binary trees, Choosing a binary tree representation, Binary tree  |        |
| traversals in C, Threaded Binary trees.   |        |
| Trees and their applications: C representation of trees, Tree traversals, General         |        |
| expression as trees, Evaluating an expression tree, Constructing a tree.                  |        |
| Module - V  |        |
| Sorting & Searching: Binary tree sort, Simple insertion sort, Address calculation sort,   |        |
| Radix sort. Sequential searching, Searching an ordered table, Indexed sequential          | 09 Hrs |
| search, Interpolation search. Tree searching: Inserting into a binary search tree,        |        |
| Deleting from a binary search tree.   |        |
| <b>Hashing:</b> Resolving hash clashed by open addressing, Choosing a hash function.      | ļ      |

## **Question paper pattern:**

The question paper will have ten questions.

There will be 2 questions from each module, covering all the topics from a module.

The students will have to answer 5 full questions, selecting one full question from each module.

|                                      |             | SEE Hours: 03 |  |

## **Prerequisite:** C Language: Functions and Pointers

## **Course Objectives:**

- 1. To study the working of data structures such as stacks, queues, trees, hash techniques, search trees.
- 2. Apply the appropriate data structure for a specified application.
- 3. To learn various searching and sorting algorithms.

#### List of

#### **Programs**

- 1. Design, Develop and Implement a menu driven Program in C for the following Arrayoperations
  - a. Creating an Array of N Integer Elements
  - b. Display of Array Elements with Suitable Headings
  - c. Inserting an Element (ELEM) at a given valid Position (POS)
  - d. Deleting an Element at a given valid Position(POS)
  - e. Exit.

Support the program with functions for each of the above operation.

- 2. Design, Develop and Implement a program in C for the following operations on Strings
  - a. Read a Main String (STR), a Pattern String (PAT) and a Replace String (REP).
  - b. Perform Pattern Matching Operation: Find and Replace all occurrences of PAT in STRwith REP if PAT exists in STR. Repost suitable messages in case PAT does not exist in STR.

Support the program with functions for each of the above operations without using built-in functions.

- 3. Design, Develop and Implement a menu driven Program in C for the following operations on STACK of Integers (Array Implementation of Stack with maximum size MAX)
  - a. Push an Element on to Stack
  - b. Pop an Element from Stack
  - c. Display the status of Stack
  - d. Demonstrate Overflow and Underflow situations on Stack
  - e. Exit

Support the program with appropriate functions for each of the above operations.

4. Design, Develop and Implement a Program in C for converting an Infix Expression to Postfix Expression. Program should support for both parenthesized and free parenthesized expressions with the operators: +, -, \*, /, %( Remainder), ^ (Power) and alphanumeric operands.

- 5. Design, Develop and Implement a Program in C for the following Stack Application. Evaluation of Suffix expression with single digit operands and operators: +, -, \*, /, %, ^.
- 6. Design, Develop and Implement a menu driven Program in C for the following operations on QUEUE of Characters (Array Implementation of Queue with maximum size MAX)

a Insert an Element on to QUEUE

b.Delete an Element from QUEUE

c.Demonstrate Overflow and Underflow situations on QUEUE

dDisplay the status of QUEUE

e.Exit

Support the program with appropriate functions for each of the above operations

- 7. Design, Develop and Implement a menu driven Program in C for the following operations on Singly Linked List (SLL) of integer values
  - a Create a SLL of N integers by using front insertion.
  - b. Display the status of SLL and count the number of nodes in it
  - c. Perform Insertion and Deletion at End of SLL
  - d. Perform Insertion and Deletion at Front of SLL
- 8 Design, Develop and Implement Program in C to Reverse a SinglyLinked List (SSL) of a given integers.
- 9. Design, Develop and Implement a menu driven Program in C for thefollowing operations on PriorityQueue.
  - a Create a Priority queue by using Insert function.
  - b. Insertion data and Priority values as Input.
  - c. Perform Deletion operation.
  - d. Display the elements of Priority queue.
- 10 Design, Develop and Implement a Program in C for the following operations on BinarySearch Tree(BST) of Integers
  - a. Create a BST of N integers: 6,9,5,2,8,15,24,14,7,8,5,2.
  - b. Traverse the BST in Inorder
  - c. Traverse the BST in Preorder
  - d. Traverse the BST in Postorder
- 11. Given a File of N employee records with a set K of Keys(4- digit) which uniquely determine the records in file F. Assume that file F is maintained in memory by a Hash Table(HT) of m memory locations with L as the set of memory addresses (2- digit) of locations in HT. Let the keys in K and Addresses in L are Integers. Design and develop a Program in C that uses Hash function H: K ®L as H(K)=K mod m (remainder method), and implement hashing technique to map a given key K to the address space L. Resolve the collision (if any) using linear probing.

| Course outcomes: On completion of the course, the student will have the ability to: |      |  |  |  |
|---|------|--|--|--|
| Course  | CO # | Course Outcome (CO)  |  |  |
| Code  |      |  |  |  |
|   | CO1  | Demonstrate the concepts of arrays and strings.                              |  |  |
|   | CO2  | Design and develop various data structure using pointers, dynamic memo       |  |  |
| 22CSL35   |      | allocation and recursion   |  |  |
|   | CO3  | Demonstrate basic operation on Linked list using suitable data structures.   |  |  |
|   | CO4  | Illustrate the implementation of different sorting and searching techniques. |  |  |
|   | CO5  | Construct Binary trees and binary search trees and demonstrate the concepts  |  |  |
|   |      | of hashing technique.  |  |  |

| Course Title: OPERATING SYSTEM       |          |              |  |  |
|--------------------------------------|----------|--------------|--|--|
| Subject Code:22CS36A                 | Credit:3 | CIE:50       |  |  |

| Total Number of Lecture Hours        | 42       | SEE Hours:03 |  |  |

Prerequisites: Microprocessor

# **Course Objectives:**

- Learn services provided by the operating system and design of operating system
- Gain knowledge on how processes are synchronized and scheduled how different resources are managed.
- Understand structure and organization of file system and approaches to memory management.

| management.   |                   |
|---|-------------------|
| MODULES   | Teaching<br>Hours |
| Module—I Introduction: Operating Systems, Computer-System Organization, Computer-System Architecture, Operating-System Operations, Process Management, Memory Management, Storage Management, Security and Protection, Kernel Data Structures, Computing Environments.  Operating-System Structures: Operating-System Services, User and Operating-System Interface, System Calls, Types of System Calls, System Programs, Operating-System Design and Implementation, Operating System Structure.  Case Studies: Architecture of UNIX, The Kernel of Unix; The Kernel of Solaris; Architecture of Windows. | 08 Hrs            |
| Process Management: Process Concept, Process Scheduling, Operations on Processes, Interprocess Communication, Communication in Client—Server Systems.  Multithreaded Programming: Overview, Multicore Programming, Multithreading Models, Thread Libraries, Implicit Threading, Threading Issues  | 08 Hrs            |
| Module– III  Process Scheduling: Basic Concepts, Scheduling Criteria, Scheduling Algorithms, Thread Scheduling, Multi-Processor Scheduling, Real-Time CPU Scheduling  Process Synchronization: The Critical-Section Problem, Petersons Solution, Synchronization hardware, Mutex Locks, Semaphores, Classic Problems of Synchronization, Monitors.  | 09 Hrs            |
| Module—IV  Deadlocks: System Model, Deadlock Characterization, Methods for Handling Deadlocks, Deadlock Prevention, Deadlock Avoidance, Deadlock Detection, Recovery from Deadlock.  Memory Management: Background, Swapping, Contiguous Memory Allocation, Segmentation, Paging, Structure of the Page Table.  | 08 Hrs            |

#### Module-V

**Virtual Memory:** Background, Demand Paging, Copy-on-Write, Page Replacement, Allocation of Frames, Thrashing, Memory mapped files, Allocating Kernel Memory **File System: File-System Interface:** File Concept, Access Methods, Directory and disk Structure, File system Mounting, File Sharing, and Protection.

**09 Hrs** 

## **Question paper pattern:**

The question paper will have ten questions.

There will be 2 questions from each module, covering all the topics from a module.

The students will have to answer 5 full questions, selecting one full question from each module.

| Total Hours of Pedagogy<br>(No SEE – Only CIE) | 40 hour Practical Session +15 hour Planning |          |  |

## Course objectives: The course will enable the students to:

- 1. Provide a formal platform for students to communicate and connect to the surrounding.
- 2. Create a responsible connection with the society.
- 3. Understand the community in general in which they work.
- 4. Identify the needs and problems of the community and involve them in problem –solving.
- 5. Develop among themselves a sense of social & civic responsibility & utilize their knowledge in finding practical solutions to individual and community problems.
- 6. Develop competence required for group-living and sharing of responsibilities & gain skills in mobilizing community participation to acquire leadership qualities and democratic attitudes.

## **General Instructions - Pedagogy:**

These are sample Strategies, which teachers can use to accelerate the attainment of the various course outcomes.

- 1. In addition to the traditional lecture method, different types of innovative teaching methods may be adopted sothat the activities will develop students' theoretical and applied social and cultural skills.
- 2. State the need for activities and its present relevance in the society and Provide real-life examples.
- 3. Support and guide the students for self-planned activities.
- 4. You will also be responsible for assigning homework, grading assignments and quizzes, and documenting students' progress in real activities in the field.
- 1. Encourage the students for group work to improve their creative and analytical skills.

| 1. Encourage the students for group work to improve their elective and analytical skins.  |                   |  |  |
|---|-------------------|--|--|
| Modules   | Teaching<br>Hours |  |  |
| Module-I  |                   |  |  |
| <b>Plantation and adoption of a tree:</b> Plantation of a tree that will be adopted for four years by a group of BE / B.Tech students. (ONE STUDENT ONE TREE) They will also make an excerpt either as a documentary or a photo blog describing the plant's origin, its usage in daily life, its appearance in folklore and literature - Objectives, Visit, case study, report, outcomes. |                   |  |  |
| Module-II   |                   |  |  |
| <b>Heritage walk and crafts corner:</b> Heritage tour, knowing the history and culture of the city, connecting to people around through their history, knowing the city and its craftsman, photo blog and documentary on evolution and practice of various craft forms - Objectives, Visit, case study, report, outcomes.   |                   |  |  |

#### **Module-III**

**Organic farming and waste management:** Usefulness of organic farming, wet waste management in neighboring villages, and implementation in the campus Objectives, Visit, case study, report, outcomes.

#### **Module-IV**

**Water conservation:** Knowing the present practices in the surrounding villages and implementation in the campus, documentary or photo blogpresenting the current practices – Objectives, Visit, case study, report, outcomes.

#### Module-V

**Food walk:** City's culinary practices, food lore, and indigenous materials of the region used in cooking – Objectives, Visit, case study, report, outcomes.

## **Course outcomes (Course Skill Set):**

At the end of the course, the student will be able to:

CO1: Communicate and connect to the surrounding. CO2: Create a responsible connection with the society.

CO3: Involve in the community in general in which they work.

CO4: Notice the needs and problems of the community and involve them in problem –solving.

CO5: Develop among themselves a sense of social & civic responsibility & utilize their knowledge in finding practical solutions to individual and community problems.

CO6: Develop competence required for group-living and sharing of responsibilities & gain skills in mobilizing community participation to acquire leadership qualities and democratic attitudes.

#### **Activities:**

Jamming session, open mic, and poetry: Platform to connect to others. Share the stories with others. Share the experience of Social Connect. Exhibit the talent like playing instruments, singing, one-act play, art-painting, and fine art.

#### PEDAGOGY:

The pedagogy will include interactive lectures, inspiring guest talks, field visits, social immersion, and a course project. Applying and synthesizing information from these sources to define the social problem to address and take up the solution as the course project, with your group. Social immersion with NGOs/social sections will be a key part of the course. Will all lead to the course project that will address the needs of the social sector?

#### **COURSE TOPICS:**

The course will introduce social context and various players in the social space, and present approaches to discovering and understanding social needs. Social immersion and inspiring conversional will culminate in developing an actual, idea for problem-based intervention, based on an in-depth understanding of a key social problem.

#### **Duration:**

A total of 40 - 50 hrs engagement per semester is required for the 3rd semester of the B.E.

/B.Tech. program. The students will be divided into groups. Each group will be handled by faculty mentor. Faculty mentor will design the activities (particularly Jamming sessions open mic ,and poetry) Faculty mentors has to design the evaluation system as per VTU guidelines of scheme & syllabus.

# Guideline for Assessment Process: Continuous Internal Evaluation (CIE):

After completion of the course, the student shall prepare, with daily diary as reference, a comprehensive report in consultation with the mentor/s to indicate what he has observed and learned in the social connect period. The report should be signed by the mentor. The report shall be evaluated on the basis of the following criteria and/or other relevant criteria pertaining to the activity completed. Marks allotted for the diary are out of 50. Planning and scheduling the social connect Information/Data collected during the social connect Analysis of the information/data and report writing Considering all above points allotting the marks as mentioned below

Excellent : 80 to 100 Good : 60 to 79

Satisfactory : 40 to 59Unsatisfactory and fail : <39

**Special Note:** 

NO SEE - Semester End Exam - Completely Practical and activities based evaluation

# **Pedagogy – Guidelines:**

It may differ depending on local resources available for the study as well as environment and climatic differences, location and time of execution.

| Sl<br>No | Topic                                     | Grou<br>psize             | Location  | Activity execution  | Reporting   | Evaluation of the Topic   |

# Plan of Action (Execution of Activities)

| Sl.<br>NO | Practice Session Description   |
|-----------|--|
| 1         | Lecture session in field to start activities   |
| 2         | Students Presentation on Ideas   |
| 3         | Commencement of activity and its progress  |
| 4         | Execution of Activity  |
| 5         | Execution of Activity  |
| 6         | Execution of Activity  |
| 7         | Execution of Activity  |
| 8         | Case study based Assessment, Individual performance                                    |
| 9         | Sector/ Team wise study and its consolidation  |
| 10        | Video based seminar for 10 minutes by each student At the end of semester with Report. |

- Each student should do activities according to the scheme and syllabus.
- At the end of semester student performance has to be evaluated by the faculty for the assigned activity progress and its completion.
- At last consolidated report of all activities from 1<sup>st</sup> to 5<sup>th</sup>, compiled report should be submitted asper the instructions and scheme.

## Assessment Details for CIE (both CIE and SEE)

| Weightage  | CIE – 100% |
|--|------------|
| Field Visit, Plan, Discussion                                  | 10 Marks   |
| Commencement of activities and its progress                    | 20 Marks   |
| Case study based Assessment Individual performance with report | 20 Marks   |
| Sector wise study & its consolidation 5*5 = 25                 | 25 Marks   |

- Implementation strategies of the project (NSS work).
- The last report should be signed by NSS Officer, the HOD and principal.
- At last report should be evaluated by the NSS officer of the institute.
- Finally the consolidated marks

|                               | Total marks for the course in each semester | 100 Marks |                                |  |
|-------------------------------|---|-----------|--------------------------------|--|
| Activities 1 to 5, $5*5 = 25$ |   |           |                                |  |
| semester with Report.         |   | 23 Warks  | available at LIC visit.        |  |
| by eachstudent At the end of  |   | 25 Marks  | university and also to be made |  |
|                               | Video based seminar for 10 minutes          |           | sheet should be sent to the    |  |

For each activity, 20 marks CIE will be evaluated for IA marks at the end of semester, Report and assessment copy should be made available in the department.

Students should present the progress of the activities as per the schedule in the prescribed practical session in the field.

There should be positive progress in the vertical order for the benefit of society in general through activities.

| Course Title: Mastering Office               |           |               |
|--|-----------|---------------|
| Subject Code: 22CSAE381                      | Credit: 1 | CIE: 50       |
| Number of Practical Hours/Week/batch (L:T:P) | 0:0:2     | SEE: 50       |
| Total Number of Practical Hours              | 12        | SEE Hours: 03 |

**Pre-requisites:** Basic computer knowledge.

#### **Course objectives:**

- Understand the use of MS-Office tools.
- Develop skills in analyzing the usability office tools.

## **Programs**

#### MS-Word -

- 1. Create Word document illustrating Text Formatting, Moving, copying and pasting text, Styles Lists Bulleted and numbered lists, Nested lists, Formatting lists. Table Manipulations.
- 2. Create Word document illustrating -Graphics Adding clip Art, add an image from a file, editing graphics, Page formatting Header and footers, page numbers, Protect the Document, Mail Merge, Macros Creating & Saving web pages, Hyperlinks.

#### MS-Excel-

- 3. Modifying a Worksheet Moving through cells, adding worksheets, rows and columns, Resizing rows and columns, selecting cells, Moving and copying cells, freezing panes Macros recording and running.
- 4. Linking worksheets Sorting and Filling, Alternating text and numbers with Auto fill, Auto filling functions. Graphics Adding clip art, add an image from a file, Charts Using chart Wizard, Copy a chart to Microsoft Word.

#### MS-Power Point -

- 5. Create a Presentation from a template- Working with Slides Insert a new slide, applying a design template, changing slide layouts Resizing a text box, Text box properties, delete a text box.
- 6. Video and Audio effects, Color Schemes & Backgrounds Adding clip art, adding an image from a file, Save as a web page.

## MS-Access -

- 7. Create Access database wizard, pages and projects. Creating Tables Create a Table in design view. Datasheet Records Adding, Editing, deleting records
- 8. Implement Adding and deleting columns Resizing rows and columns, finding data in a table & replacing, Print a datasheet. Queries MS-Access.

#### Microsoft Outlook

- 9. Create Microsoft Outlook, Outlook Today
- 10. Illustrate Different Views In Outlook, Outlook Data Files

#### **Course outcomes:**

On completion of the course, the student will have the ability to:

| Course       | CO# | Course Outcome (CO)  |
|--------------|-----|--|
| Code         |     |  |
|              | CO1 | Know the basics of computers and prepare documents, spreadsheets, make small presentations with audio, video and graphs and would be acquainted with internet. |
| 44 CC 4 T404 | CO2 | Create, edit, save and print documents with list tables, header, footer, graphic, spellchecker, mail merge and grammar checker                                 |
| 22CSAE381    | CO3 | Attain the knowledge about spreadsheet with formula, macros spell checker etc.   |
|              | CO4 | Demonstrate the ability to apply application software in an office environment.  |
|              | CO5 | Use Google Suite for office data management tasks  |

| Course Title: NATIONAL SERVICE SCHEME (NSS) |           |               |  |  |
|---|-----------|---------------|--|--|
| Subject Code: 22NS39 Credits:00 CIE: 50     |           |               |  |  |
| Number of Lecture Hours/Week(L:T:P)         | 0:0:2 Hrs | SEE: 00       |  |  |
| Total Number of Lecture Hours               | 28        | SEE Hours: 00 |  |  |

#### **Prerequisites:**

- 1. Students should have a service oriented mind set and social concern.
- 2. Students should have dedication to work at any remote place, anytime with available resources and proper time management for the other works.

Students should be ready to sacrifice some of the time and wishes to achieve service oriented targets on time

## **Course Objectives:**

- 1. Understand the community in which they work
- 2. Identify the needs and problems of the community and involve them in problem-solving
- 3. Develop among themselves a sense of social & civic responsibility & utilize their knowledge in finding practical solutions to individual and community problems
- 4. Develop competence required for group-living and sharing of responsibilities & gain skills in mobilizing community participation to acquire leadership qualities and democratic attitudes Develop capacity to meet emergencies and natural disasters & practice national integration and social harmony

#### Modules

- 1. Organic farming, Indian Agriculture (Past, Present and Future) Connectivity for marketing.
- 2. Waste management–Public, Private and Govt organization, 5 R's.
- 3. Setting of the information imparting club for women leading to contribution in social and economic issues.
- 4. Water conservation techniques Role of different stakeholders– Implementation.
- 5. Preparing an actionable business proposal for enhancing the village income and approach for implementation.
- 6. Helping local schools to achieve good results and enhance their enrolment in Higher/ technical/ vocational education.
- 7. Developing Sustainable Water management system for rural areas and implementation approaches.
- 8. Contribution to any national level initiative of Government of India. Foreg. Digital India, Skill India, Swachh Bharat, Atmanirbhar Bharath, Make in India, Mudra scheme, Skill development programs etc.

- 9. Spreading public awareness under rural outreach programs.(minimum5 programs).
- 10. Social connect and responsibilities.
- 11. Plantation and adoption of plants. Know your plants.
- 12. Organize National integration and social harmony events /workshops /seminars. (Minimum 02 programs).
- 13. Govt. school Rejuvenation and helping them to achieve good infrastructur

# ONE NSS - CAMP @ College /University /State or Central Govt Level / NGO's / General Social Camps:

Students have to take up anyone activity on the above said topics and have to prepare content for awareness and technical contents for implementation of the projects and have to present strategies for Implementation of the same. Compulsorily students have to attend one camp.

CIE will be evaluated based on their presentation, approach and implementation strategies.

| Throws- Hurdles, Last Hurdles to Finishing.  |
|  |
| Discuss  |
|  |
| Throw Clearance (Straddle) and Landing. Discus   |
| Throw: Holding the Discus, Initial Stance  |
| Primary Swing, Turn, Release and Recovery  |
| (Rotation in the circle).  |
| Foot Ball A. Fundamental Skills  |
| 1. Kicking: Kicking the ball with inside of the  |
| foot, Kicking the ball with Full Instep of the   |
| foot, Kicking the ball with Inner Instep of the  |
| foot, Kicking the ball with Outer Instep of the  |
| foot and Lofted Kick.  |
| 2. Trapping: Trapping- the Rolling ball, and the   |
| Bouncing ball with sole of the foot.   |
| 3. Dribbling: Dribbling the ball with Instep of  |
| the foot, Dribbling the ball with Inner and Outer  |
| Instep of the foot.  |
| 4.Heading: In standing, running and jumping  |
| condition.  5 Throw in Standing throw in and Dynning   |
| 5. Throw-in: Standing throw-in and Running throw-in.   |
|  |
| 6.Feinting: With the lower limb and upper part of the body.  |
| 7. Tackling: Simple Tackling, Slide Tackling.  |
| 8.Goal Keeping: Collection of Ball, Ball   |
| clearance- kicking, throwing and deflecting.   |
| 9. Game practice with application of Rules and   |
| Regulations.   |
| B. Rules and their interpretation and  |
| duties of officials.   |
| Hockey A. Fundamental Skills   |
| 1. Passing: Short pass, Long pass, push pass,  |
| Scooping hit 2. Trapping. 3. Dribbling and Dozing.   |
| 4.Penalty stroke practice. 5.Penalty corner  |
| practice. 6. Tackling: Simple Tackling, Slide  |
| Tackling, 7.Goal Keeping, Ball clearance-kicking,  |
| and deflecting. 8.Game practice with application   |
| of Rules and Regulations.  |
| B. Rules and their interpretation and  |
| duties of officials.   |
